

### EP3 coated replacement spring (left side) for model 940 and 944 doors.

Due to product improvements, springs of different size and finish are specified for replacement in certain doors. To verify that this is the correct replacement for your application, consider the shipment date if known, and compare the original specification on the table below to the spring that you will be replacing.

Left/Right side is as observed when standing inside the storage unit looking out at the door. In standard Trac-Rite applications, the latch side is the left side.

### For 940 and 944 doors shipped 1990 to present:

Width range: 9'1" to 11'0"

Height range: 2'10" to 10'4"

	Original Spring
Wire Diameter	.263"
Inside Diameter	3.375"
Nominal Length	16.04"
No. of Coils	60
Inch Number Per Turn (IPPT)	64

Corresponding right side spring is 522310
