

EP3 coated replacement spring (left side)

Due to product improvements, springs of different size and finish are specified for replacement in certain doors. To verify that this is the correct replacement for your application, consider the shipment date if known, and compare the original specification on the table below to the spring that you will be replacing.

Left/Right side is as observed when standing inside the storage unit looking out at the door. In standard Trac-Rite applications, the latch side is the left side.

For 955 doors shipped 1998 to present:

Width range: 10'0" to 12'0"

Height range: 7'10" to 11'11"

Refer to Trac-Rite Spring Replacement Guide Table for greater application detail.

	Original Spring	Replacement Spring
Wire Diameter	.306"	.306"
Inside Diameter	3.375"	3.375"
Nominal Length	22.94"	22.94"
No. of Coils	104	104
Inch Number Per Turn (IPPT)	68	68

Corresponding right side spring is 600982
